In touch with nature

IN TOUCH WITH NATURE

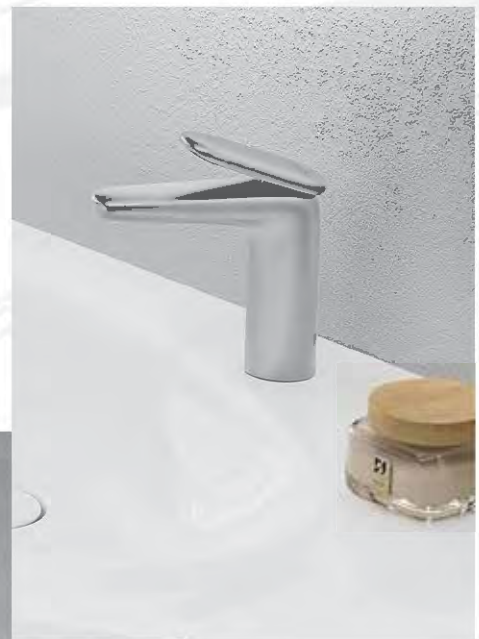

It's well-known that the simplest ideas are often the best. For the internationally renowned designer duo kaschkasch, a single dew drop was all it took to inspire a multiple award-winning, complete bathroom collection. Antao's design concept is based on the organic and asymmetrical shape of a dew drop, which features throughout the entire collection from the tap fitting to the toilet as a quintessentially harmonious theme. Antao represents a fascinating symbiosis of elegance and simplicity.

Discover Antao and unlock the secret to a bathroom that will bring nature into your home to endow you with a sense of tranquillity and revitalise you.

DESIGN AND FUNCTION IN PERFECT HARMONY

For a particularly harmonious look and optimum functionality, we ensure that the tap fittings and bathroom ceramics are perfectly matched. This precise coordination of angles, radii and curves, for example, ensures a seamless design and user experience.

Thanks to their special design and various finishes, the Antao tap fittings harmonise with all the ceramics. This means that you can design your bathroom according to your very own individual ideas to create your personal oasis of well-being.

INSPIRED BY A DEW DROP

Antao's form is modelled on nature: this design concept is particularly apparent in the asymmetric surface-mounted and vanity washbasins in a matt look. The washbasin blends perfectly with the vanity unit and tap fitting to form a harmonious union.

Nature's rich bounty is also manifested in the colour range for the ceramics, covering a diverse spectrum, each tone of which complements any combination to perfection.

HANDS-ON PREMIUM QUALITY

Touch & feel and user-friendliness go hand in hand: the illuminated mirror can be operated by touch sensor as well as via a smart home system. The drawers come with a push-to-open mechanism and optionally with interior lighting as well.

The broad product range takes in everything from a sideboard to a tall cabinet, offering extensive scope for individual bathroom design.

HARMONIOUS DOWN TO THE FINEST DETAILS

With solid wood or stone surfaces and smooth or structured fronts, Antao's harmonious design shines through in all aspects, with rounded edges and corners and a broad choice of colours modelled on nature.

Discover a bathroom collection boasting a natural variety that will fulfil all your needs and wishes.

NATURAL BEAUTY IN THE BATHROOM

The bath's organic and ergonomic design exudes an air of serenity and relaxation. Its robust material, Quarryl®, enables a particularly fine and exquisite design for the bath and is pleasantly warm to the touch. SilentFlow can optionally be integrated into the bath for quiet filling. The bath, washbasin and toilet are available in four natural colours for unique bathroom design. We recommend Squaro Infinity as a colour-matched shower tray.
