Ceramic Sinks by Craftsmen

FOR KITCHENS WITH CHARACTER

VILLEROY & BOCH DOUBLE BOWL SINK 6323 91 R1

VILLEROY & BOCH CISTERNA SINKS.
6703 01 RIGHT - 6707 01 LEFT
SHOWN IN OPTIONAL BLACK FINISH.

EXPERIENCE TRADITION, RELY ON PERFECTION.

Villeroy & Boch offers you more than 260 years of experience, competence and the security of a major brand. Products that enrich life – with good design, lasting quality and with an assured sense of style.

PERFECTION IN FUNCTION AND DESIGN.

Knowing the value of details. Recognising the importance of fine distinctions. Stylishly combining colours. Find yourself: in the functions, forms, colours and design freedom offered by the Villeroy & Boch ceramic sinks.

KITCHEN CERAMICS: A FASCINATING MATERIAL.

A ceramic sink? An option for everyone who knows how diverse, robust, easy-care and hygienic ceramic is. And the perfect solution for those who are familiar with the stylish designs that can be achieved with colour.

REASONS TO CHOOSE CERAMIC

The ceramic sink is robust and resistant to extreme temperatures.

- Variety of colours: the right colour for every type of kitchen
- Easy-care and hygienic: All Villeroy & Boch ceramic sinks come with ceramicplus as standard. This innovative surface treatment developed by Villeroy & Boch has proven itself throughout the last ten years.

ceramicplus
Villeroy & Boch

THE BENEFITS FOR YOU

- Quick and easy cleaning
- Reduced need for cleaning agents
- Water use is reduced
- Increased resistance to shocks and scratches: The firing process at over 1,200 °C results in a dense and robust ceramic material which is perfectly able to withstand the usual stress and strain encountered in the household
- Will not take on flavours or smells: suitable for contact with foods, so you have one less thing to worry about
- Light-fast: colours will not fade
- Resistant to chemicals: common household chemicals can cause no harm. Easy removal of even stubborn stains.
- Resistant to extreme temperatures: hot pots and pans and frozen foods have no effect
- Environmentally - compatible: harmless in terms of manufacture and disposal, as made of only natural materials
- Full of character: the surface is pleasant to the touch and radiates natural charm
- Hygienic: the benchmark in hospitals and in the bathroom

Villeroy & Boch

Unique features & benefits

FINE CERAMICS SINCE 1748 - YOU DESERVE THE BEST.

Creativity, inventiveness and entrepreneurial vision have been the driving forces behind Villeroy & Boch's success for over 250 years. The ceramics manufacturer and supplier of lifestyle products for the home is one of the oldest family enterprises of international stature. Villeroy & Boch leave no stone unturned in their production of top quality china to suit all styles.

Paterson Trading – owned and operated in New Zealand for over 50 years – backs up the quality of Villeroy & Boch with superior service and advice. Villeroy & Boch products offer prestige to any bathroom as well as unique features and benefits

CREDENTIALS

The reputation of Villeroy & Boch makes it the preferred choice for use in first class hotels and prestigious residential and commercial building projects across the globe.

HOTELS / APARTMENTS

Hotel Hermitage Monte Carlo, Monaco
Wellness Hotel Georgshöhe, Germany
Hotel Concorde Lafayette Paris, France
Hilton Canary Warf, London, Great Britain
Harbourside, Crest Nicholson Bristol, Great Britain
Hotel Steigenberger Frankfurter Hof
Frankfurt, Germany

INDUSTRIAL

Porsche Zentrum Saarland; Germany
VW Autohaus Großklos Saarbrücken, Germany
Skywalk Hannover, Germany
Cinéaqua Paris, France

CERAMIC PLUS

Makes Cleaning Easier & Faster – with less chemicals. Ideal for asthmatics, the environment and for septic tanks. Dirt particles are virtually unable to obtain a hold on the surfaces of sanitary-ware featuring the Ceramic Plus finish, and water flows off in large droplets, taking the dirt with it. Consequently, a damp cloth is all that's needed for cleaning purposes - aggressive cleaning agents are a thing of the past. Unique to Villeroy & Boch, Ceramic Plus is fused into their fine ceramics at 1260°C. These outstanding properties have been confirmed by the independent Fraunhofer Institute IST in Brunswick to last at least 10 years.

DURABLE, STYLISH BATHS - QUARYL®

Quaryl®, developed by Villeroy & Boch is a hard mineral material, coloured throughout and filled with quartz. Quaryl® allows steeper bath walls giving you a longer sized bath that still fits your bathroom. Quaryl® also absorbs sound, retains heat and is slip resistant.

SPACIOUS LOOK & IN-WALL CONFIDENCE

How many times do you worry about designs that have in-wall water cisterns. The combination of using two world leaders eliminates that worry – Villeroy & Boch toilets, bidets and wall hung basins together with the German precision of GROHE in-wall cisterns. Additional benefits are the uniquely attractive flush buttons supplied and the easy access later. No longer do tiles and walls have to be dismantled for simple maintenance or servicing – GROHE faceplates allow servicing through the existing faceplate and wall structure.

GLAZED THROUGHOUT FOR HYGIENE & SUPERIOR FLUSHING

All Villeroy & Boch toilets are glazed under the rim and throughout the outlet. Although this costs more it helps keep your toilet hygienic, reduces odour and ensures superior flushing.

QUIET BATHROOMS

No turbulence, no water hammer Quiet Flush & Refill. Villeroy & Boch toilets offer quiet flush and refill (as low as 12-14 dB). You can now flush toilets without worrying about long, noisy flushes and the cistern gurgling loudly as it refills - peace all around.

SOFT CLOSE SEATS

No more slamming or damage. Soft close seats are simply tipped with the fingers and quietly close themselves, this significantly reduces noise and allows them to be situated next to bedrooms.

Memento

PURE ABANDON

Purism does not mean doing without. It means reduction to the essentials and freedom from the superfluous. Memento reduces design to clear lines, allowing scope for true individuality.

Venticello

Venticello

THE LIGHTNESS OF QUINTESSENTIALLY MODERN DESIGN

The winning aesthetic of the Venticello Collection is expressed in the precision of a fine language of form. Asymmetrical cabinet sinks, generous shelves, a surface-mounted sink with semi-fitted appearance and flat toilet seats in various designs are just some of the highlights of a perfect design.
