MEMENTO 2.0

Room for character

MEMENTO 2.0

Room for character

Enjoy the pure lightness of Memento 2.0, delivering minimalist and distinctive style. The modern premium bathroom collection is made from our high-quality ceramic TitanCeram. Precise contours and thin walls lend a particularly intricate appearance to Memento's unmistakeable look. Strikingly true-to-style - a bathroom that creates room for character.

MADE WITH TITANCERAM

Extremely thin walls, precise & slim edges

TitanCeram

Precision in its finest form.

Even more precise, even thinner, even more impressive.

With TitanCeram, Villeroy & Boch is setting a whole new standard in terms of contemporary design. TitanCeram is an innovative material by Villeroy & Boch that incorporates all the experience they have gained in more than 270 years of ceramic manufacture. It was developed specifically for high-quality, premium designs. TitanCeram – the material for exceptional design highlights of the best possible quality.

Please note: Memento 2.0 is currently an indent range and lead times can be up to 14 weeks.
